

# Vehicle Tracking on Google

Contributed by Administrator  
Tuesday, 26 August 2008

Ennoble is currently conducting a remote deployment of the Vehicle Tracking Solution using Google Maps, in Malaysia. Through the various geospatial and web infrastructure expertise from the Ennoble office in Melbourne, Quantum Parallel Sdn Bhd is able to deploy the Vehicle Tracking Gmaps solution to the Centre-Side in Kuantan. Quantum Parallel has been an Ennoble partner in Malaysia, specialising in web-based solution for the Malaysian Police (PDRM)
